

# Avengers 101: How to Defeat Dr. Doom

Drax | Homework 2 | Fictional submission

## ***1. Is that actually Doom?***

An independent scanner should identify his armor, and a robot serial number suggests a Doombot. I will stare at the sticker until it confesses.

## ***2. Assemble a team***

My team is Thor, Groot, and myself. We are three. This part of the assignment is mathematically complete.

## ***3. Protect the public***

The evacuation route is the east walkway. I will shout WALK EAST with the confidence of a man who has never checked a compass.

## ***4. The dramatic shield***

My imaginary Anti-Drama Spoon eats the shield's dramatic background music, so the shield forgets to exist. I have brought a fork in case lunch happens.

## ***5. The after-action meeting***

We won. My evidence is that I have written "we won" twice. We won.
